

CPS Portfolio

carolinapolymer.com

Product Lines

Polypropylene

ExxonMobil
Formosa Plastics
LyondellBasell
Phillips Sumika
Total Petrochemical

ABS

BASF
Ineos
LG Chem
Samsung

Engineered Resin

Clariant
Dupont
LG Chem
LyondellBasell
Plaskolite

Polyethylene

Chevron Phillips
Formosa Plastics
LyondellBasell
Nova Chemical
Total Petrochemical

Polyacetal

Dupont
Kepital®
Kocetal®
Ticona

Polystyrene

Americas Styrenics
Ineos Nova
LG Chem
Resirene
Total Petrochemical

Custom Material

Filled ABS Compounds
Filled Nylon Compounds
Filled PP Compounds
FR Materials and Composites
All Elastomers
Reprocessed Resins
Generic Prime Resins and Programs

CPS is a complete resource for specifying, sourcing, and procuring a broad range of resins and compounds.

Depend on CPS for a total solution in thermoplastic design and application.

Services

- “Just in Time” Inventory/Release Services.
- Multiple stocking warehouses in the South and Northeast.
- Blanket Order Releases for packaged and bulk resins.
- Custom inventory stocking programs.
- Full flexibility in material choice, manufacturer and cost decisions—no supplier restrictions or biases.
- Comprehensive resource for certified prime, generic prime, wide-spec, blended and special materials.
- Turn-key consultation and material procurement, with over 30 years experience in plastics design, engineering and materials guidance.
